

AHMAD MALEK ABDALLAH

Computer Science | software development

Akroum, Akkar, Lebanon | +961 81387146 | ahmadmabed06@gmail.com | linkedin.com/in/ahmadabdallah-cs

Professional Summary

Recent Computer Science graduate from the Lebanese University with a strong interest in Software Development and modern web technologies. Skilled in programming, problem-solving, databases, and networking through academic studies and hands-on projects. Gaining practical experience in full-stack web development, with a focus on technologies such as React, Next.js, Node.js, and databases. Experienced in building and contributing to software projects and collaborative development environments. Eager to contribute to innovative software solutions while continuously developing technical and professional skills.

Education

Lebanese University — Bachelor of science (B.S.) in Computer Science (Graduated: 2025–2026)

Experience & Training

- Currently completing 'React - The Complete Guide (incl. Next.js, Redux)' by Maximilian Schwarzmüller (Udemy), covering React, Hooks, Redux, React Router, Next.js, and best practices.
- Full-Stack Development Internship with techtalks – Collaborated with a team on real-world project using React, Next.js, Git, GitHub, PostgreSQL, Prisma and Jira.
- Currently completing a Full-Stack Development Internship with Lebinex as a Team Leader, leading a team of four developers on a real-world project using Next.js, React, Git, GitHub, Prisma and PostgreSQL.
- Successfully completed the Elements of AI course as part of the Tech Pathways MENA Program, and participated in educational webinars focused on Artificial Intelligence, Business Innovation, and emerging technologies.
- Attending a bootcamp (full stack development) with TechTalks.

Technical Skills

- Frontend: HTML, CSS, JavaScript, React, TypeScript, TailwindCSS, Nextjs, Nodejs
- Databases: Oracle SQL, MongoDB, PostgreSQL
- Networking: Cisco Networking Fundamentals, IPv4/IPv6, Subnetting
- Tools: Visual Studio Code, Visual Studio, Microsoft Word, Excel, PowerPoint
- AI Tools: ChatGPT, Claude, Gemini
- Operating Systems: Linux, windows

Languages

Arabic (Native)

English (Good): Successfully completed a full course, and I earned a certificate.

French (Good)

Projects

•Medfinder-Pharmacy-System

techtalks Internship | Full-Stack Team Project

- Developing a pharmacy management platform in an Agile team.
- Building REST APIs, database models, and frontend features.
- Collaborating using GitHub, Jira, and Notion.

Technologies: Next.js, JavaScript, PostgreSQL, REST APIs, GitHub, Jira, Notion

•E-Commerce Website (Graduation Project)

Full-Stack Team Project

- Developed a full-stack e-commerce website with a responsive frontend and backend APIs.
- Designed the Oracle database and collaborated with the team using GitHub and Jira.

Technologies: HTML, CSS, JavaScript, Oracle Database, REST APIs, GitHub, Jira

•Hotel Management System

ASP.NET Web Application

- Developed a hotel management system with database integration for managing rooms, reservations, and customers.

Technologies: ASP.NET, C#, SQL, HTML, CSS.

•Library Management System

University Project

- Built a web-based library management system with book and user management features.

Technologies: HTML, CSS, JavaScript

•Tic-Tac-Toe Game

React.js Project

- Developed an interactive Tic-Tac-Toe game to practice React components, state management, and event handling.

Technologies: React.js, JavaScript, HTML, CSS
